RE: Free Prescription Drug Cards / Prescription Drug Discounts for Nevada Residents '

The Washoe County Medical Society's Board of Directors recently met with Suzanne Domoracki, Program Development, with **Nevada Drug Card**. She gave a presentation regarding free prescription drug cards/prescription drug discounts that Nevada residents can obtain to receive savings on their prescriptions at participating pharmacies. The card (download at www.nevadadrugcard.com or if the resident doesn't have internet access, they can go to any participating pharmacy) can assist uninsured, under-insured, and those who have health insurance coverage without prescription benefits to afford their prescription medication – many non-formulary or non-covered drugs.

The **Nevada Drug Card** program is funded through the support of pharmaceutical companies and is open to every resident of Nevada. Bi-lingual (English/Spanish) cards, a list of participating pharmacies, and pricing can be obtained on their website at www.nevadadrugcard.com.

The medical society is sharing this information with our membership as it may be of interest to you, your practice managers, and your patients. Enclosed, please Q&A pamphlet to review along with additional information you may wish to copy and distribute in your medical practice office/s.

Please be advised that this program is completely optional to you and/or your patients.

Thank you in advance for your prompt attention and cooperation.
